

SL-c Commercial **SL-i Industrial**

RGS slide gate operators mount directly to the support posts of the gate and allow for installation where pad mounted, chain drive operators are not desirable or practical. Two power levels are available: SL-c commercial grade for residential and commercial sites or SL-i Industrial grade for heavy commercial and industrial sites.

CAPACITIES:

SL-c Commercial: 35', 1500 lbs., Continuous Duty

SL-i Industrial: 45', 2500 lbs., Continuous Duty

UL LISTED FOR CLASS I, II, III, IV

FUNCTIONALITY

Full Systems Capable Controller

Soft Start / Stop adjustable in programming

Inherent Reverse Sensor (UL 325 type A obstruction sensor)

Monitored Open and Close Obstruction inputs (for UL 325 type B1 or B2 sensor)

Multiple Opening options on power outage

Convenience Outlet for Accessories (1Amp max)

High Torque Permanent Magnet DC Motor

UHMW Nylon Rack Gear Provides Years of Trouble Free Service

Rack and Pinion Design is more secure than Hydraulic Drive Rail type operators

OPERATOR DIMENSIONS

Operator: 26" High x 8" Diameter

Control Box: 18" x 18" x 6"

ELECTRICAL

120 VAC, 60 Hz, 20 Amps

Prewired NEMA 3R Control Box

MECHANICAL

Direct Drive 93:1 gear reduction

**Key Secured Emergency Release for
Easy Override**
